

FUNDAMENTALS MC[®] PUMPS

Centrifugal Pumps

ANDRITZ[®]

Introducing: Centrifugal Pumps & Medium Consistency Pumps

Effective Training Designed by Industry Leaders

Each fundamentals lesson blends the engineering expertise of Andritz® with the most recent innovations in information technology and the instructional design and media savvy of Delta Training Partners. In-depth explanations of how equipment and processes work are combined with sound, animation, and 3-dimensional graphics to bring complex processes to life and make them memorable.

Centrifugal Pumps

- Purpose & principles of operation
- Pump Components
- Packing & mechanical seals
- Pump curves
- Critical pumping variables
- Pump condition monitoring
- Much more!

Medium Consistency Pumps

- Purpose & principles of operation
- Components, controls, & instrumentation
- MC® pump system configurations
- Internal & external degassing systems
- Dilution control
- MC® Pump & degassing critical variables
- Much more!

Training, the Way You Want It

These new modules represent the pinnacle of flexibility when it comes to installing and presenting the lessons. Install a lesson on a web server or use the included standalone Windows app version to run the training from a LAN server, individual workstation, USB flash drive, or even the CD-R. The web-based version is fully SCORM/ADL compliant, so it is ready to import into your site's learning or content management system.

Start Saving Today!

These multimedia training materials cost less than 10% of what you would pay for comparable materials, and they require no mill-side labor to produce! Computer-based training can shave up to 40% off the time needed to study similar material in manuals, with better retention of material and quicker skill building. Overtime savings in one year alone can pay for the cost of the courseware, not to mention the reduction in maintenance costs due to improved operation by more knowledgeable operators!

Both Lessons: **\$999**

Purchased separately:

Centrifugal Pumps - \$499

Medium Consistency Pumps - \$799

Previous buyers of at least one Fundamentals series of lessons qualify for 10% off the standard price of any other lesson or series.
