Now Available: SCORM-compliant, Web-based Editions of All Fundamentals Titles

Same Great Instructional Content, New Format

We captured the informative material from the previous versions, paired it with new multiple-choice and matching style exercises to reinforce the content, and included new objective tests that are delivered at the end of the lessons. Each new edition lesson includes both a SCORM-compliant web-based version and a standalone desktop application version to give your site flexibility in how the titles are delivered and used.
